

BILL BRIEF

Delegation: **Eisenhower High School**

House Sponsor: **Deonante Sutton**

Senate Sponsor: **Christopher Robinson**

Legislative Intent:

This bill will eliminate the current food stamp benefit range scale and replace it with a set rate based upon the current maximum numbers for each category, thus allowing maximum benefits for all people who qualify for the program.

Evidence #1

The evidence is a estimate on how much a family should receive based off the number of people in the household

Source:

Center of Budget and Policy Priorities (<https://www.cbpp.org/research/food-assistance/a-quick-guide-to-snap-eligibility-and-benefits>)

Analysis:

This evidence gives an maximum amount of monthly benefit by the number of people in the household. It also shows the estimate average monthly benefit by the number of people in the household. You can see that the estimated amount is lower than the maximum; therefore we want to change it, so that there's no scale factor in the money.

Statistical Evidence #2:

The evidence shows how much each household can have in order to qualify for food stamps.

Source: .

Illinois Department of Human Services(<https://www.dhs.state.il.us/page.aspx?item=30357>)

Analysis:

The evidence shows how much a household is allowed to make in order to qualify for food stamps. This also shows who doesn't qualify for food stamps. Also, it gives an estimate amount of money for each household.
